Examples of screw conveyors for various purposes

We would be happy to advise you personally which screw conveyor with which equipment and supplies is the right one for your needs.

1. Galvanized pipe screw conveyor \varnothing 150 mm for the conveying of flour
2. Trough screw conveyor \varnothing 400 mm made of stainless steel with motoric slides
3. Dual Trough screw conveyor \varnothing 150 mm for plastic shreds, coated
4. Drive station for pipe screw conveyor \varnothing 150 with rain cover
5. Pipe screw conveyor connection 0-45°
6. Robust flange bearing with stuffing box for trough screw conveyor \varnothing 400 mm
7. Inlet 250 * 250 mm with connection flange
8. Mobile loading station \varnothing 300 mm with buffer tank made of galvanized steel
9. Galvanized Trough screw conveyor \varnothing 200 mm with pneumatic slides
